MAP NOTICE

DIRECTORATE OF INTELLIGENCE

CIA/BGI MLN 75-2 November 1974

1:250,000 SPECIAL INTELLIGENCE GRAPHIC ON COMMUNIST AREAS

Quarterly Status Report

1. During the third quarter of 1974 fourteen sheets were printed in the CIA/DoD Special Intelligence Graphic (SIG) program (DMATC Map Series 1505, 1:250,000). The 1,933 sheets now published in this series cover about 87 percent of the USSR, 79 percent of China, 95 percent of Poland, and 26 percent of Mongolia, Currently 92 sheets are in production. Future production will concentrate on the remaining high priority areas and on selective revision of outdated sheets; some remote areas with minimal intelligence data will not be covered. Highlights of several sheets of particular significance published during the last quarter appear below. See the reverse side for a detailed list of major cities and installations covered by printed SIGs and for ordering instructions and security information.

2. Special Intelligence Graphics are produced jointly by the Central Intelligence Agency and the Department of Defense. The all-source intel-

ligence data for these maps are provided by the Office of Basic and Geographic Intelligence (OBGI) of CIA; base data, compilation, printing, and dissemination are furnished by the Topographic Center of the Defense Mapping Agency. The maps summarize intelligence data and provide a reliable framework against which incoming information can be evaluated. The intelligence on the maps, as illustrated on the portion of a typical sheet printed below, includes the location and identification of military installations, important industries, transportation and communications facilities, hydrographic features, and populated places. Installations and facilities of lesser importance, but of value for interpreting activities within a region, are also shown. This evaluated all-source intelligence is printed by DMATC at a scale of 1:250,000 on planimetric bases or on modified Joint Operation Graphic (JOG) bases that have contour lines.

MAP SHEET

NI 48-8 Pao-chi (Loesslands, North China)

NG 49-16 Shao-kuan (South China Mountains)

NG 49-2 Chih-chiang (South China Mountains)

INTELLIGENCE SIGNIFICANCE

Diversified industrial and transportation center; heavy fabrication of military and civilian equipment; trunk railroad lines to Northwest China and across Central China Mountains to Szechwan Province.

Mining and ore processing center; uranium mines; steel, cement, chemicals, and mining machinery; military barracks and POL and ammunition storage.

New east-west railroad line; north-south line under construction; light and heavy fabrication industries under development along railroads.

25X1B

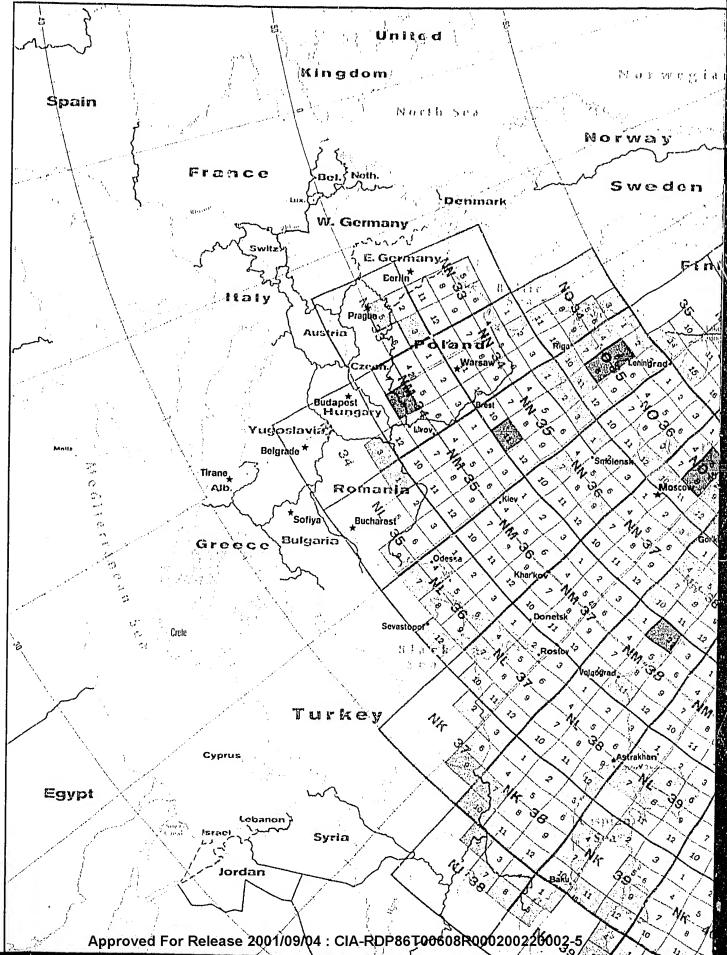

NO 37-8 Yaroslavl'
(North-central European USSR)
NN 35-11 Pinsk
(Belorussian SSR)

NL 53-5 Bikin (Soviet Far East, China) Military barracks, SAM sites, and heavy industry at Rybinsk and Yarosmyl'; ; tain water, rail, and road routes and oil and gas pipelines.

Kozhanovichi MRBM Complex; military and industrial installations at Pinsk; military barracks and training areas at Urech'ye and Slutsk; main highways and railroad through Pripyat' Marshes.

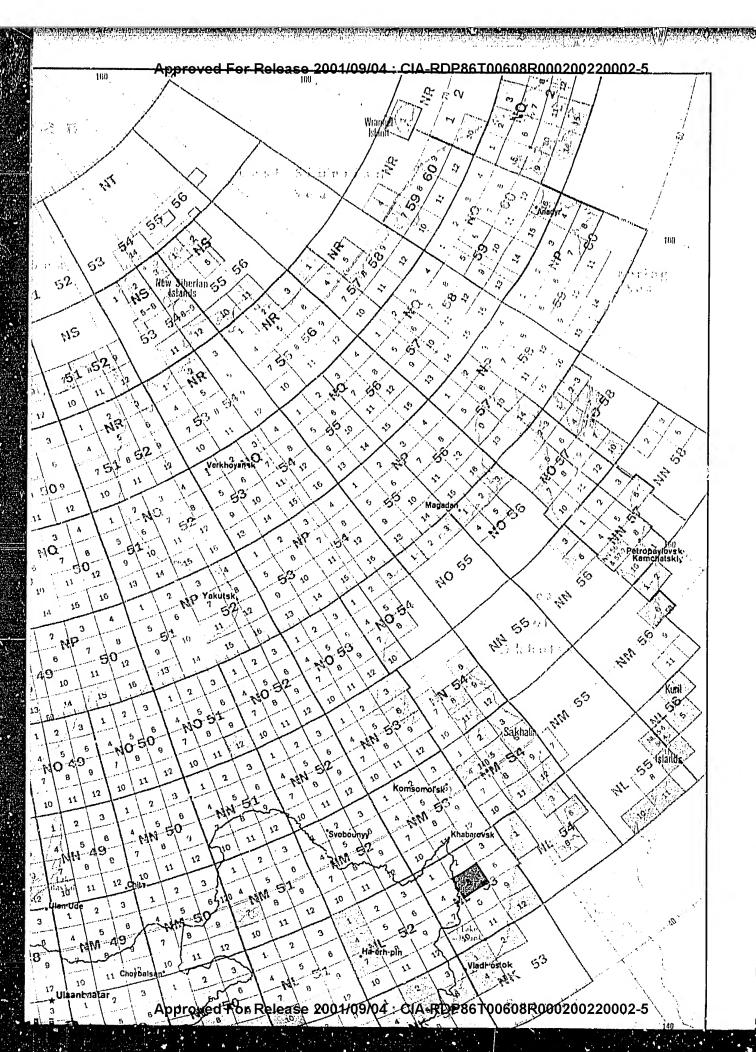

Soviet troop and tank training areas at Bikin; Lastochka Airfield; Chinese and Soviet border security posts along Ussuri River; Trans-Siberian Paileard and pain road to Vladinatals.

NIMA Declassification/Release Instructions on File

#### ORDERING INSTRUCTIONS

Retention copies of these map sheets can be obtained from the main Reference Branch of the CIA Map Library, Building 159-E (code 143, extension 2688); the reference facility in Room GE-0444 of the CIA Headquarters Building (extension 6563); or the reference facility in Room 902 of the Magazine Building (extension 3447). When ordering by telephone, please refer to Map Notice MLN 75-1 and the numbers of the sheets desired, rather than to the title of this map notice or the number of the map series. The combination of series number with sheet number or sheet name is SECRET, NO FOREIGN DISSEM

25X1X7

Automatic receipt of future sheets can be arranged by calling the main Reference Branch of the Map Library. Department of Defense personnel can obtain copies through their normal map procurement channel (Topographic Center, Aerospace Center, or Hydrographic Center).
